AM INSIGHTZ / RETAINER SCOPE KIT

Before you say yes to "one more post"

A short checklist for freelance social media managers assessing an extra client request.

1. Is it a new deliverable, an included revision, or a correction to your own error?
2. Does a cross-post need resizing, new copy, or a separate approval?
3. What work must move to make room for it?
4. Who supplies missing assets, and by when?
5. Can you offer a genuinely comparable swap?
6. If it is additional work, have the estimate and revised delivery date been explicitly approved?

REPLY STARTER

"Happy to discuss it. Our current scope includes [X]. This adds [Y]. We can explore a comparable swap, or I can send an estimate and revised delivery date. Which would you prefer?"

FICTIONAL EXAMPLE

USD 1,200 over 24 hours is USD 50/hour in revenue. Four unpaid extra hours make it USD 42.86/hour. Costs and tax are not deducted. This is an illustration, not a market rate or expected result.

Use your own rates and review estimates against your agreement. This checklist is a planning aid, not legal, tax, or financial advice.
